LETTER FROM THE EDITOR PHILADELPHIA, March 2nd, 1854. Having just arrived here, via Washington Citywhere I stopped a day or two, I propose filling a short space of time, which I cannot otherwise conveniently occupy, with the composition of a "Communication" for the Journal; perhaps it may come equally convenient to fill some space in the paper, and at least

stop the ravenous cry of "Copy". It is not by any means a jolly affair, this starting off on the Cars by your private self,-rolling your body up in one corner like a boa constrictor, or, as Mrs. Partington renders it " a blessed old boss contractor," and thinking over your sins and misdemeanors, to say nothing of the money you owe; and then, if your papers and receipts are not all right and fixed up, who knows but in case of your getting killed on the Cars, your Administrator might conspire with Miss Fox, the Spiritual Rapper, to have your Ghost up, to tell all about it, and give the necessary information. However, towards Weldon, better thoughts return-you awake to hope and a consciousness of stewed oysters, which latter delicacy you get, together with other et cetaras of a capital dinner, at Mr. Whitfield's; -taking the Bay Line, you get a good night's sleep on board the boat, and the next morning are in Baltimore, as well as could be expected. There had been a very heavy Snow at Baltimore and Washington, and some of it yet remains, although the weather this week has been as mild as it was in Wilmington

Of matters at the seat of government, I can tell you little that you cannot find in the papers. The Ne braska Bill will pass the Senate this week or next, by a very decided majority. It will have a much harder fight in the House, but will pass,—when, it is impos-sible to say. The President enjoys the implicit confi-praise towards our hotels, as our readers are aware, of such a law by the Legislature, is, that the Supreme talk about any other state of affairs existing is flum-

The Late Freshet and the Mails.

We have had no mail from the South for three or four days; and travel, during the same time, has been considerably retarded, in consequence of the damage done to the Railroads by the late freshet.

We learn that the Great Pee Dee, night before last and yesterday morning, rose 36 feet, and that the dam this side the river broke and washed away for about 150 or 200 feet. On the arrival of the train at that place yesterday, at about a quarter past six, A. M., it was feared that it would be impossible to cross the river; but, through the untiring exertions every case submitted to its consideration during the brought by the plaintiffs, merchants of this city, to Indian frontier.
